

DATA SHEET

VACUUM PUMP DOUBLE EFFECT PRO (WITH BATTERY)

ARTICLE

4646880000

DESCRIPTION

Double-acting vacuum pump with battery for emptying refrigeration and air conditioning systems.

Its lithium battery power supply gives it a long working autonomy.

Highly recommended for professional use.

Suitable for R32, R410A, R134A, R407C, R404A, R22T, etc. gases.

WITHOUT CABLE

TECHNICAL DETAILS

Lithium battery power supply

Voltage: 18V

Battery life: 50 minutes (aprox.)

Electrical charge: 5Ah

Flow rate: 56 L/min

Vacuum: 25 micron

Oil capacity: 200 ml

Connection: Thread 1/4 SAE

Frequency: 50/60Hz

FEATURES

Housing made of high-strength aluminium and PVC.

Ergonomic handle with protection for a better grip and greater comfort of use.

Very sturdy base for good stability.

Sight glass with oil level indicator.

ADVANTAGES

One of the lightest vacuum pumps on the market, weighing only 3.6Kg.

Dimensions 277 x 92 x 196mm.

Essential for refrigeration installations. It creates a vacuum inside the circuit, extracting air and humidity.

Supplied with carrying case, made of aluminium (case + charger + battery + battery + pump + oil).

ALUMINIUM CASE

220 mm high

220 mm width

300 mm length
